

CHAPTER IV

CASHIERING

COMPONENTS

INTRODUCTION

PROGRAM REVIEW

CASHIERING

INTRODUCTION

The Cashiering function consists of processing employer contribution payments, including the following major tasks:

- M Receive employer contribution payments
- M Prepare contribution payments for deposit
- M Deposit contribution payments into clearing account(s)
- M Record all contribution payment deposit information
- M Post contribution payments to employer accounts
- M Transfer monies to the Unemployment Trust Fund (UTF)

PRIMARY OBJECTIVE

The primary objective of Cashiering is the prompt and accurate processing of employer contribution payments. To achieve this, the Cashiering function must:

1. Process all contribution payments accurately and record deposit activities accurately (Accuracy and Completeness)
2. Deposit all contribution payments promptly and transfer monies to the UTF timely (Timeliness)

Accuracy and Completeness To determine the accuracy and completeness of processing employer contribution payments and recording deposit activities, a Program Review will be conducted to determine the existence of necessary internal controls and to determine whether or not such controls are functioning properly.

Timeliness

CASHIERING

INTRODUCTION

To assess the promptness with which the SESA deposits contribution payments into the clearing account, an **Estimation Sample** will be conducted. (Timeliness of the transfer of monies from the clearing account into the UTF will be gauged through another vehicle and will not be assessed through TPS)

REVIEW METHODOLOGIES

Because accuracy of posting of contribution payments will be evident through the Account Maintenance Acceptance Samples for Contribution Report Processing, Debits/Billings and Credits/Refunds, no Acceptance Sampling is required for the Cashiering function.

Program Review

The Program Review for Cashiering has two components: a Systems Review and an Estimation Sample.

The Systems Review covers the following:

- M Recorded Information and Instructions
- M Training
- M Recording of Transactions and Events
- M Execution by Authorized Individuals
- M Systems to Assure Execution of Events
- M Review of Completed Work
- M Review UI Cashiering activities conducted by Non-SESA Entities (other State Agency or Lockbox)

CASHIERING

INTRODUCTION

REVIEW METHODOLOGIES

The Systems Review will identify the internal controls and quality assurance systems necessary for an effective Cashiering operation, and indicate if such controls are in place. Most questions in the Systems Review require a Verification Source (VS). However, because of the significance of the Cashiering function, some review questions require small, stringent tests to confirm the presence and effectiveness of the internal controls.

Verification Test (VT) instructions are provided when a verification test is needed. If a VT fails, the reviewer must draw the conclusion that a risk exists in that area. (VTs that fail must be repeated the following year.)

In addition to the review of the SESA Cashiering operation, a section has been designed for the SESAs that employ non-SESA, State Agencies (e.g. State Departments of Revenue) or banks (lockboxes) to perform Cashiering activities. For SESAs that employ either a non-SESA agencies or a bank lockbox for Cashiering activities, **BOTH SYSTEMS REVIEWS ARE NECESSARY** because:

- M Rarely can all contribution payments and documents received at a non-SESA cashiering site be processed exclusively at the site, and
- M The SESA Cashiering Systems Review includes questions dealing with recording deposit information for which SESAs have responsibility.

All references to Non-SESA State Agencies and Bank Lockbox Operations will be generically referred to as Non-SESA Entities on all subsequent pages.

NOTE: If NO contribution payments are received by the SESA, some questions in the SESA Cashiering Systems Review may not be applicable to your SESA's operations. The reviewer should carefully examine each question in the SESA Cashiering Systems Review, document the reason specific questions are not applicable and request Regional Office approval to record N/A answers for those questions.

CASHIERING

PROGRAM REVIEW

REVIEW METHODOLOGIES

The Estimation Sample for Cashiering examines :

M Employer Contribution Payments

In addition to the Systems Review, a sample of employer contribution payments will be examined to measure the timeliness in which contribution payments are deposited into the SESA's clearing account. The Estimation Sample will be selected from daily mail receipts during the review period.

PROGRAM REVIEW

SYSTEMS REVIEW

Recorded Information and Instructions

In the SESA Cashiering operations, procedures should be set forth for receiving employer contribution payments, preparing contribution payments for deposit, depositing contributions into the clearing account, recording deposit activity, posting contribution payments to the employers' accounts and transferring monies to the UTF.

The reviewer should examine recorded information, instructions and procedures available to the staff and compare them to the laws and written policies of the SESA to determine if they are current, accurate, and complete. The reviewer should also observe the Cashiering process and talk with employees to learn if the recorded information, instructions and procedures are available to staff..

The operations of a non-SESA entity to process contribution payments for the SESA, will **not** be included in this section of the review (See the Non-SESA Entities Systems Review for a review of non-SESA State Agencies and bank lockbox operations). However, residual work done by the SESA will be included, e.g., procedures for sending and receiving work to and from the non-SESA entity.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section. If there are no recorded instructions, describe in the narrative how the staff becomes aware of the proper procedures to perform the tasks of the Cashiering function.

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

1. Does the SESA have recorded information and instructions to assist employees to perform Cashiering functions in accordance with State laws and policies?

Yes ____ No ____

2. If yes, are all recorded information and instructions:

Yes No

- a. Current? ____ ____
b. Accurate? ____ ____
c. Complete? ____ ____
d. Readily available to staff? ____ ____

VS:(Questions 1 and 2)

3. If any of the preceding evaluative questions are answered "no", does the SESA have a substitute or compensating control?

Yes ____ No ____ N/A ____

If yes, describe in the narrative following these questions.

VS:(Question 3)

PROGRAM REVIEW

SYSTEMS REVIEW

Training

The SESA needs to have systems and procedures to identify training needs and deliver training to employees who perform duties within the Cashiering function. New employees need to learn the procedures for processing and posting employer contribution payments. Experienced employees benefit from periodic refresher courses and additional training when procedures change and/or defects in quality occur at an unacceptably high rate.

The reviewer should become familiar with the methods and procedures the SESA uses to identify and meet the training needs of employees involved in cashiering activities.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section. If there is no formal training program, then describe how the staff learns of the laws and written policies and the proper procedures to perform the Cashiering duties.

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

1. Does the SESA have methods or procedures to provide training for newly hired employees?
Yes ___ No ___

*If yes, identify the type of training:

Yes No

- a. *Formal Classroom Training? ___ ___
b. *On the Job Training? ___ ___
c. *One-on-One Training? ___ ___
d. *Individual Self-guided Training? ___ ___
e. *Other? ___ ___

Describe the type and frequency of training in the narrative.

2. Does the SESA have methods or procedures to provide refresher training for experienced employees?
Yes ___ No ___

*If yes, identify the type of training:

Yes No

- a. *Formal Classroom (e.g., refresher courses)? ___ ___
b. *On the Job Training? ___ ___
c. *One-on-One Training? ___ ___
d. *Individual Self-guided Training? ___ ___
e. *Other? ___ ___

CASHIERING

PROGRAM REVIEW

Describe the type and frequency of training in the narrative.

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW

Recording of Transactions and Events

The Cashiering function should have procedures and controls to assure that employer contribution payments are accurately accounted for and that bank deposits are accurate and reconciled. An audit trail should lead from source documents to SESA accounting records of receipts and to the transfer of monies into the UI Trust Fund.

The reviewer must determine whether there are systems to assure that records of receipt and processing of employer contribution payments are kept accurately, completely, and up-to-date. An audit trail should be in place leading to support documentation.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section. If there is no recording or reconciliation of the General Ledger Account, then explain how the SESA is assured that the accounts are accurate.

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

1. Does the SESA maintain an audit trail for the following types of transactions:

		<u>Yes</u>	<u>No</u>	<u>N/A</u>
a.	Receipt of employer contribution payments?	___	___	
b.	Preparation of contribution payments for deposit? . . .	___	___	
c.	Deposits to the clearing account?	___	___

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW

Execution by Authorized Individuals

The Cashiering unit handles negotiable items and cash. Access to these contribution payments should be limited to authorized, assigned staff. This requirement provides security for the contribution payments and assures that the cashiering functions are performed by authorized, assigned individuals only.

The reviewer must examine the flow of contribution payments through the SESA and identify the internal controls limiting access to and providing accountability for the contribution payments. The reviewer must also examine the authorizations and procedures governing the flow of contribution payments from field offices and other sources to the Central Cashiering unit.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section.

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

1. Does the SESA have the following controls to assure that the processing of contribution payments is limited to assigned staff in the Central Office:
 - a. Specific individual(s) assigned to assure that all mail is picked up or delivered daily?
Yes___ No___
 - b. Specific individual(s) assigned to open and handle checks?
Yes ___ No___
 - c. Area for opening and handling checks restricted to assigned individuals?
Yes ___ No ___
 - d. Specific individual(s) assigned to receive and prepare contribution payments for deposit?
Yes ___ No ___
 - e. Area for preparing contribution payments for deposit restricted to assigned individuals?
Yes ___ No ___
 - f. Specific individual(s) assigned to account for and forward contribution payments to bank for deposit?
Yes ___ No ___

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

1. g. Area for accounting of contribution payments to forward to the bank for deposit restricted to assigned individual(s)?
Yes ___ No ___
- h. Specific individual(s) assigned to deliver contribution payments to bank?
Yes ___ No ___
- i. * Controls for receiving and depositing contribution payments other than those listed above? (If yes, describe in the narrative).
Yes ___ No ___

VS:(Question 1)

2. Does the SESA have the following internal controls to provide accountability for all employer contribution payments received in other units in the Central Office and/or the field:
- a. Specific individual(s) assigned and responsible for receiving and accounting for contribution payments?
Yes ___ No ___

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

- b. Procedures for controlling and forwarding contribution payments from collections units, field units or other similar units to the Central Cashiering Unit?

Yes ___ No ___

- c. Procedures to verify that contribution payments forwarded from collections units, field units or other similar units were received by Central Cashiering Unit?

Yes ___ No ___

VS: (Question 2)

3. Does the SESA have the following internal controls providing accountability for handling currency (actual cash) received:

- a. Pre-numbered receipt books?

Yes ___ No ___

- (1) If yes, is an internal audit (e.g., verifies who assigns the books, who possesses them, that the proper number sequence is used, etc.) performed?

Yes ___ No ___

- (2) *If yes to (1) above, indicate frequency of audit by checking all that apply:

- (a) *Monthly ___
(b) *Quarterly ___
(c) *Annually ___

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW

Systems to Assure Execution of Events

For Cashiering, controls are needed to reconcile balances of transactions and to identify areas where exceptions are encountered.

The reviewer will determine if such controls have been built into the Cashiering operations. It is beyond the scope of TPS to actually validate balances in the general accounting system. The reviewers will only verify that the SESA maintains a general accounting system and performs reconciliations of all accounts (i.e., Accounts Receivables, Clearing, Solvency Fund, Penalty and Interest).

A section has been designed for SESAs that employ the services of Non-SESA Entities to perform cashiering activities. Both sections must be completed by SESAs that use the services of Non-SESA Entities because not all cashiering activities can be processed through the Non-SESA Entities' operation.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section.

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

1. Does the SESA verify that the amount shown on the daily deposit records agrees with the amount credited by the bank?

Yes ___ No ___
2. Does the SESA verify that the amount credited by the bank agrees with the amount recorded in the SESA's accounting system (i.e., general ledger account)?

Yes ___ No ___
3. Does the SESA have internal controls in place to assure that discrepancies between its deposit records and bank deposit records are routinely reconciled?

Yes ___ No ___
4. Does the SESA have internal controls that assure that adjustments are made to the accounting system to reflect discrepancies reported by the bank?

Yes ___ No ___
5. Does the SESA have internal controls that assure that adjustments are made to employer accounts to reflect the discrepancies reported by the bank?

Yes ___ No ___

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

6. Does the SESA have internal controls to assure that the SESA accounting system is adjusted to reflect dishonored-check contribution payments?

Yes ___ No ___

7. Does the SESA have internal controls to assure that the employer's account is adjusted to reflect dishonored-check contribution payments?

Yes ___ No ___

VT: (Verification Test) Conduct the following test and annotate your findings in the space below. For each bank used by the SESA, select a bank reconciliation statement(s) (or statement from comptroller's office citing SESA banking activities) for one month from the past 12 months. Track all entries (e.g., deposits, debit for dishonored checks, credit memorandums resulting from coding errors, or other adjustments to deposits) back to the deposit record to assure that all appropriate action was taken. Exclude from this test transfer of funds, employer refund activity or any benefit payment activity. **NOTE:** *If the SESA does not receive a traditional bank statement, determine the means by which the SESA acquires a record of banking transactions. Consult with your Regional Office to develop an approach to conducting the VT using the documents available to you.*

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

8. Does the SESA have procedures to assure timely deposit of all contribution payments?

Yes ___ No ___

VS:(Question 8)

9. *Does the SESA sort contribution payments and source documents as follows?

Yes No

- | | | | |
|----|--|-----|-----|
| a. | *Timely reports | ___ | ___ |
| b. | *Untimely reports | ___ | ___ |
| c. | *Reports with liability reported, payment enclosed | ___ | ___ |
| d. | *Reports with liability reported, no payment enclosed | ___ | ___ |
| e. | *Reports with no wages, no liability due | ___ | ___ |
| f. | *Reports with excess wage only, no liability due | ___ | ___ |
| g. | *Other items that can not be processed immediately
(e.g., Correspondence, etc.) | ___ | ___ |

10. *Does the SESA have procedures to give priority to depositing high dollar contribution payments?

Yes ___ No ___

If yes, describe in the narrative at the end of this section.

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW QUESTIONS

11. Does the SESA have a procedure for problem items that require special handling (e.g., reports received with no employer account number, irregular contribution payments, etc.), that assures prompt follow-up and deposit of payments? (Example: process to place items in a suspense account/exception file for follow-up). Yes ___ No ___
- a. If yes, does the SESA have procedures to assure that items placed in the above accounts/files are ultimately handled and posted as appropriate? Yes ___ No ___

VT: (Verification Test) Conduct the following test and note your findings in the space below. At the beginning of the quarter, identify 12-15 employer contribution payments in the "suspense account/exception file". At the end of the quarter, review the records to determine the disposition of the items.

- M If an item has not yet been cleared, determine whether or not procedures have been followed thus far.
- M For items that have been cleared, determine if procedures were followed correctly and timely (e.g., payments were posted to the proper employers' accounts within the time frame required by the SESA, or money was correctly refunded or transferred to the proper State agency).

NOTE: Reviewers who cannot conduct this test because the SESA does not use exception files/suspense accounts must contact their Regional Office for further instructions.

CASHIERING

PROGRAM REVIEW

SYSTEMS REVIEW

Review of Completed Work

For Cashiering function, the SESA should be conducting systematic reviews of completed work to assure accuracy and timeliness. The review should include contribution payments posted to employer accounts as well as deposit activity.

The reviewer will consider the kind of supervisory program and/or quality assurance review the SESA uses to assess the Cashiering function. The review procedure may differ for new employees.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section. If there is no supervisory and/or quality assurance review, describe how quality is assured in the Cashiering unit.

For staff members involved in the Cashiering function, are the following components subject to some form of systematic review?
For Yes answers, indicate the approximate percentage, **if known**, of work reviewed on an annual basis. If review is performed but percentage is unknown, enter a "Y" in the appropriate column(s). For Yes answers, also enter "Y" in column 6. If there are no reviews, answer "N" for No in column 6. Column 6 is the only evaluative question.

Component	Type of review					
	*1 Supv %/Y	*2 Peer %/Y	*3 QR (Qual. Rev) %/Y	*4 Support Clerical %/Y	*5 Other %/Y	6 Review Conducted Y/N
a. Timeliness of deposit of contribution payments.						
b. Reconciliation of bank statements and resolution of discrepancies.						
c. Proper handling of NSF checks, including adjustments to SESA deposit records and individual employer accounts.						
d. Timely and accurate clearance of items from suspense/exception files.

PROGRAM REVIEW

*Review of Non-SESA Cashiering Activities
(Bank Lockbox or non-SESA Agency)*

***THE SESA USES A BANK LOCKBOX OR NON-SESA AGENCY TO PERFORM CASHIERING ACTIVITIES:**

YES ___ NO ___

If yes, continue to the next page. If no, this concludes the Systems Review.

SYSTEMS REVIEW

Recorded Information and Instructions

The SESA should have a contract with the bank or non-SESA agency that performs its Cashiering activities. The contract should specify all the procedures and controls that are needed to assure that contribution payments are processed timely and accurately, that information and unprocessed contribution payments and documents are forwarded to the SESA, that deposits are made to the Clearing Account in a timely manner, and that transfers are made to the UTF timely. The SESA should also have methods to verify that the contractual requirements are being met.

The reviewer should review the contract and visit the location(s) where the Cashiering activity takes place (bank or other agency) to determine that the operation is fulfilling the contract requirements. The reviewer should also review the process to assure that contribution payments are being processed timely and accurately and that information, unprocessed contribution payments and documents are forwarded to the SESA.

In the Narrative Section following the questions, explain "Other" responses and "Compensating Controls". Identify the question being explained by referencing the number and section.

PROGRAM REVIEW

SYSTEMS REVIEW

Execution by Authorized Individuals

Since the Cashiering function requires the handling of negotiable items and cash, access to these items should be limited to authorized, assigned staff. This requirement provides security for the contribution payments and assures that the cashiering functions are performed only by authorized individuals.

The reviewer should examine the contract and the handling of contribution payments by the Non-SESA Entity to identify the internal controls limiting access to and providing accountability for the contribution payments.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section.

SYSTEMS REVIEW

Systems to Assure Execution of Events

For Cashiering, controls are needed to assure that the Non-SESA Entity provides the services detailed in the contract and that specific instructions are followed.

The reviewer will determine if such controls have been built into the contract and if the Non-SESA Entity is adhering to the conditions of the contract.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section.

CASHIERING

Non-SESA Entities

PROGRAM REVIEW

Review of Completed Work

For SESAs that use the services of Non-SESA Entities to perform Cashiering functions, a review of completed work would include monitoring contract provisions. The SESA should conduct systematic reviews of completed work by the Non-SESA Entity to assure accuracy and timeliness of the information. The contract should specify the quality of work expected by the SESA.

The reviewer will consider the kind of quality assurance review the SESA uses to assess the quality of work completed for it by the Non-SESA Entity.

In the Narrative Section following the questions, explain "Other" responses, and describe "Compensating Controls". Identify the question being explained by referencing the number and section. If there is no quality assurance review, describe how quality is assured by the SESA in the Cashiering function.

SYSTEMS REVIEW QUESTIONS

1. Does the SESA monitor the performance of the contract?

Yes ____ No ____

- a. *If yes, identify which provisions are monitored in the narrative following these questions.

VS: (Question 1)

2. *Does SESA management consider the provisions of the contract adequate for the SESA's payment processing needs?

Yes ____ No ____

- a. *If No, how is the contract deficient?

3. *Is the contract procured through a competitive bid process?

Yes ____ No ____

Additional Controls

1. *Are there additional internal controls or quality assurance systems exercised by the Non-SESA Entity that this review failed to identify?

Yes___ No___

If yes, describe below.

2. * Are there any exemplary practices by the Non-SESA Entity or by the SESA in the dealing with the Non-SESA Entity?

Yes___ No___

If yes, describe below.

ESTIMATION SAMPLE

CASHIERING

PROGRAM REVIEW

DEPOSIT PROMPTNESS OF CONTRIBUTION PAYMENTS

ESTIMATION SAMPLE INSTRUCTIONS

<i>Purpose/Intent</i>	M	To measure the timeliness in which SESAs deposit contribution payments into the Clearing Account.
<i>Scope</i>	M	The scope of the review will be the contribution payments received during the second quarter review period.
<i>Universe</i>	M	The universe for the Estimation Sample should include all paper payments (e.g., cash, checks) received during the review period. A sample will be drawn from the universe of paper payments to determine deposit promptness. A sample size <u>GOAL</u> of 500 payments (see the Sampling Table on page 113) will be selected from the paper payment universe and listed on the TPS Cashiering Sample Coding Sheet.

NOTE: In SESAs that accept **ELECTRONIC FUND TRANSFERS (EFTs)**, the reviewer must determine the percent of contributions received via EFT. Sampling the EFT universe is not necessary since all EFTs are deposited timely. A formula has been developed that combines the measurements from the Estimation Sample (paper payment sample) and the entire EFT universe to reflect overall deposit promptness (see Step 11).

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

Timing/Frequency

- M The sample will be selected once per calendar year.
- M The sample selection period will cover the time during which the SESA receives the "peak" or "bulk" mail for the second quarter reports. (Typically, reports and payments will be due on or around July 31).

Sampling Procedures

- M The following describes the steps for selecting the sample items.

STEP 1. *Determine the time frame for pulling sample items.

To gauge the pattern for mail receipt and to approximate the time frame the "peak" or "bulk" mail can be expected for 2nd quarter reports, reviewers should check with the Cashiering unit and/or the mail room for historical information about mail receipt. The number of days during which sample items will be selected will be contingent upon the pace the mail comes into the SESAs and may vary substantially from SESA to SESA. Typically, the "bulk" or "peak" mail will be received during the 2-3 days prior to the due date through 2-3 days following the due date. However, it may take as long as two weeks for the "peak" mail to come into some SESAs or as little as 4 days in others.

* Please refer to last page of Estimation Sample Instructions if lockbox is used.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

STEP 2. Notify Regional Office of Sample Period.

Reviewers must apprise the Regional Office of the days selected for sampling and provide information to support the selection, including an estimate of the percentage of total dollar amount that will be received during the selected period.

STEP 3. Determine if mail is pre-sorted.

Determine if checks are sorted for special handling prior to opening the envelopes based on predetermined indicators such as color coded envelopes or a separate mailing address for large employers.

- a. If yes, see instructions and explanation in Appendix A for adjustment required before going to step 4.
- b. If no, go to step 4.

STEP 4. Determine which sample selection method will be used. The SESA may use either one of following sampling methodologies:

- a. the **Check Interval Method**, or
- b. the **Mail Tray Method**.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

Check Interval Method

To use the **Check Interval Method**:

(1) Project the total number of contribution payments (less EFT payments) to be received during the designated time frame by one of the following methods and enter the number in the appropriate place on the Summary Sheet.

- (a) Use last year's total number of receipts (items) for the second quarter, OR
- (b) Use the number of employers expected to report during the sample period. (Total number of active employers minus anticipated number of late filers).

(2) Divide the projected number of contribution payments (items) by 500 to determine the Check Interval Number (Nth number).

(3) Determine the Random Starting Number for the sample. (See instructions in Appendix A, TPS Handbook). This will be the first sample item selected.

(4) From the Random Starting Number, count the envelopes until the Nth item is selected. Each successive item to be selected is determined by adding the Nth number to the number of the most recently selected item. (NOTE: It is permissible to measure the distance between the random start number item and the Nth item within a mail tray to select each subsequent sample item.)

ESTIMATION SAMPLE INSTRUCTIONS

Mail Tray Method

To use the **Mail Tray Method**:

- (1) Estimate the number of mail trays to be received during the peak period using historical data from the Cashiering Unit and/or the Mail Room.
- (2) Determine the number of sample items to be selected from each tray by dividing 500 by the number of trays that you expect to receive.

EXAMPLE: If forty (40) trays of mail are expected during the sampling time frame, divide 500 by 40. The result is 12.5 contribution payments per tray. Alternately, make a random selection of 12 items from the first tray and 13 from the next tray during the course of the sample selection time frame.

Sample Selection

STEP 5. Select sample contribution payments.

On each of the days of the sampling time frame, the TPS reviewer (or alternate) will go to the area where the mail is received, opened (by machine) and transferred to mail trays. The samples for the day will be selected from these trays by the method selected by the SESA.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

Sample Selection cont.

IT IS MORE IMPORTANT TO MAINTAIN A CONSISTENT SAMPLING TECHNIQUE THAN IT IS TO PULL EXACTLY 500 ITEMS. ONCE THE SAMPLING TECHNIQUE IS ESTABLISHED, DO NOT ALTER IT. EXAMPLE: IF YOU ARE PULLING EVERY 10TH ITEM AND THE 20TH ITEM CONTAINS NO PAYMENT, DO NOT RECORD THAT ACCOUNT AS PART OF THE SAMPLE, BUT CONTINUE TO COUNT TO THE 30TH ITEM WHICH WILL BE THE NEXT ITEM RECORDED AS PART OF THE SAMPLE. THE SAMPLING TABLE ON PAGE 113 WILL ADJUST THE PERCENTAGE NEEDED TO DETERMINE THE VALUE-TO-PASS.

Identifying Sample Items

STEP 6. Record identifying information for each sampled payment.

For each sample contribution payment, complete Columns B, C, and D on Coding Sheet as follows.

- a. Column B:
Enter the date that the mail was received by the SESA or Non-SESA Entity.
- b. Column C:
Enter the employer account number assigned by the State. If an account number is not available, enter the employer's name or business name as shown on the report or payment.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

NOTE: Even when the account number is available, it may be useful to record the employer's name to assure accurate identification. This column may also be used at the discretion of the reviewer to record any other information that would be helpful in identifying the account or tracking the payment.

c. Column D:
Enter the amount of the payment.

STEP 7. Replace sample item.

Return each payment to approximately the same spot from which it was removed. There should be nothing that would indicate which payments are part of the sample except the information recorded on the Coding sheet.

STEP 8. Determine the review date.

Determine the date it is reasonable to assume that all contribution payments received during the selection period are deposited and the information is posted to the employers file. Enter the date in the appropriate blank on the Summary Sheet. Hold the list of sample contribution payments until the sample review date.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

Reviewing Samples

Step 9. Review sample payments for timeliness.

Each sample payment listed on the Coding Sheet will be reviewed for timeliness of deposit.

Review appropriate records to determine the date that all payments listed were deposited (e.g., deposit slips, batch listings, cash transmittal log, employer's record, etc.).

Step 10. Complete Coding Sheet.

For each sample contribution payment, complete the Coding Sheet as follows:

a. Column E:
Enter the date that each payment listed was deposited.

b. Columns F, G, H and I:
For each payment listed, complete the appropriate column (Columns F through I), using the following process.

(1) Determine the number of banking days between date the payment was received and the date the payment was deposited (do not include weekends and holidays).

NOTE: Payments received one day and deposited the next day are considered to be deposited within one day, regardless of the TIME of day received or the TIME of day deposited.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

(2) Based on number of days between receipt and the date of deposit, enter the dollar amount of the sample payment either column F, G, H, or I, as follows:

! Column F represents within one (1) day for deposit.

! Column G represents within two (2) day for deposit.

! Column H represents within three (3) day for deposit.

! Column I represents within four (4) or more days for deposit.

c. For each page of the coding sheet, total amounts of each column and enter the total amount of the column on, Total Dollar This Page (line 21). The total amount of Columns F, G, H, and I should equal the total of column D.

d. For each page of coding sheet, count the number of items in each column and enter total on, Total Items This Page (line 22). The Total items of each column should equal the total number of completed lines of the Coding Sheet (cannot exceed 20 per sheet).

Complete the coding sheet for all sample items.

ESTIMATION SAMPLE INSTRUCTIONS

CASHIERING

PROGRAM REVIEW

- e. Complete Part II of the Summary page of the Coding Sheet as follows:
- (1) Total amounts of Columns D, F, G, H and I from coding sheets used in sample selection.
 - (2) Enter column total amount on corresponding columns of Summary Coding Sheet on line 1, columns D, F, G, H and I.
- (Total amounts of columns F, G, H, and I should equal total of line 1, column D).
- (3) Total items for columns D, F, G, H and I for all coding sheets used in the sample selection.
 - (4) Enter column total items on corresponding columns of Summary Coding Sheet on line 2, columns D, F, G, H and I.
- (Total number of items for column F, G, H and I should equal total of line 2, column D).

ESTIMATION SAMPLE INSTRUCTIONS

CASHIERING

PROGRAM REVIEW

- f. Complete Part III of the Summary Page. This will give the percentage for timeliness and amounts deposited.
- (1) To compute the percent of amounts deposited:
! Divide the total dollar amounts of each column (F through I) from Part II, line 1 by the total dollars column D, line 1, then
! Multiply the result by 100 and round to the nearest, one decimal place.
- (2) Enter the percentages in Part III, line 3, in corresponding column (F, G, H or I).
- (3) To compute the percentage of items deposited:
! Divide the total item count of each column (F through I) from Part II, line 2 by the total item count from column D, line 2, then
! Multiply the result by 100 and round to the nearest, one decimal place.
- (4) Enter the percentages in Part III, line 4, in corresponding column (F, G, H and I).

NOTE: The percentages of items deposited (f(3) & f(4) above) are only to aid the reviewer and SESA management in analyzing the level of effort in the deposit activity (items vs. dollars). No Federal requirements pertain to the number of items deposited. Federal requirements relate to dollar amounts only.

ESTIMATION SAMPLE INSTRUCTIONS

CASHIERING

PROGRAM REVIEW

- g. Complete Part IV, Summary Recap of the Summary Page. This will demonstrate the percentage of dollars deposited by day.
 - (1) From Part III, line 3 enter the percentages from the corresponding columns into the percentage line.
 - (2) From Part II, line 1, columns F, G, H, and I, enter amounts into corresponding column in Part IV.
 - (3) Add the percentages and amounts deposited within 3 days (lines 5, 6, and 7 of Summary Recap) and enter on line 8.
 - (4) Total percent column and amount column. Percentage total should be 100%. Total of amount should balance with Part II line 1, Column D total.
- h. Enter the actual number of contribution payments received during the designated time frame in the appropriate blank of Part I on the Summary.
- i. Subtract the projected number of payments (or trays) from the actual number of payments (or trays) and enter the difference on the designated line in Part I of the Summary Sheet.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

Calculating % of Deviation

- j. Divide the difference by the projected number of payments, and multiply the result by 100. Round to the nearest, one decimal place and enter on the space in Part I of the Summary Sheet for % of Deviation. This information should be taken into account for estimating contribution payments for the next Deposit Timeliness sample.

EXAMPLE:

Projected number of payments = 15,000

Actual number of payments = 18,000

Difference = 18,000 - 15,000 = 3,000

Percent Deviation = 3,000/15,000 = 1/5 or .20

.20 * 100 = 20%

*Electronic Fund Transfers
(EFT)*

STEP 11. Calculating Electronic Fund Transfers (EFTs). (If no EFTs are received, go to STEP 12).

All EFTs from employers for contributions (do NOT include penalty and interest payments) received during the quarter, will be counted as being deposited timely. The following formula should be used by SESAs that receive both paper payments and EFTs to determine overall timeliness of deposit.

$$P = (w * 100) + [(1-w)*p]$$

where w is the proportion of funds deposited electronically and p is the percentage of the paper payments received by the agency or sent to the lockbox that were deposited within 3 banking days (line 8 from Summary Recap).

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

EFT, continued

EXAMPLE: If 10 percent of dollars are deposited electronically and 92 percent of dollars received as paper payments are deposited within 3 banking days, the weighted combined estimate is:

$$P = (.1 * 100) + (.9 * 92)$$

$$P = 10 + 82.8 = 92.8 \text{ percent}$$

NOTE: While the percent of paper payments deposited in a timely manner is based on the Estimation Sample, the percent of contributions received via EFT should be based on actual EFT payments for the quarter.

Drawing Conclusions

STEP 12. Drawing conclusions of timeliness.

- ! Identify the size of the sample from Part II, line 2, column D of the Summary Coding sheet (Total Items).
- ! Refer to the following Sampling Table to determine the value to pass.
- ! **TIMELINESS STANDARD:** 90% or more dollars deposited within 3 days or less.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

Drawing Conclusions, cont.

- ! If the percentage of the total dollar amount deposited within 3 banking days (line 8 of Summary Sheet), is equal to or greater than the value to pass percentage, then the reviewer will conclude that 90% of the dollar amount of employer contribution payments have been deposited timely.
- ! If the percentage of the total dollar amount deposited within 3 banking days is less than the "value-to-pass" percentage, then the reviewer must conclude that timely deposit of employer contribution payments cannot be confirmed.

Value-to-Pass

SAMPLING TABLE

<u># OF SAMPLE ITEMS</u>	<u>VALUE TO PASS</u>
375 - 405	87.5%
406 - 441	87.6%
442 - 481	87.7%
482 - 527	87.8%
528 - 579	87.9%
580 - 640	88.0%

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

Drawing Conclusions Cont.

- ! If the SESA receives no EFTs, then this conclusion will be based solely on the outcome of the Estimation Sample. If EFTs are accepted by the agency, the conclusion will be based on a combination of the Estimation Sample results and the EFTs received by the agency. (See Step 11).
NOTE: *If the percentage of combined EFT and paper payments is less than the value to pass, the SESA must notify the Regional Office. The Regional Office will request that the National Office adjust the value to pass to reflect the percentage of EFT payments and determine if the SESA has met the 90% timeliness standard.*

Documentation

- ! For all untimely deposits, the reviewer must provide an explanation on the Acceptance Sample Explanation Sheet.
- ! All documentation (gathered to review samples which does not include checks) must be kept until the completion and Regional Office approval of the Annual Report. Either hard copy documentation or (in some highly automated systems) the ability to recreate the identical information used in the review must be maintained.

CASHIERING

PROGRAM REVIEW

ESTIMATION SAMPLE INSTRUCTIONS

Lockboxes

- ! All SESAs should make all reasonable attempts to follow the above instructions. If, however, lockboxes are not in the same geographical location as the reviewer AND it is not possible for the reviewer (or alternate) to pull the sample for the entire "peak" period, OR there are other circumstances that make it impossible to follow the instructions (i.e., around the clock processing), a modified sampling methodology may be used with the advance approval through the Regional Office. *The SESA must request approval through the Regional Office and give the reason for the request. Based on the information provided, the Regional Office and National Office will develop a modified sampling methodology for the SESA.*
